

My Testimony

It is really incredible what a juice made with Mangosteen Fruit has done for me. At the end of the first bottle I noticed the changes & they are only increasing as I progress.

Six years ago I had my lower lumbar spine 1-5 fused, & due to the reasons behind the problem, I have been on 3 narcotic drugs & numerous others just to function. I had been diagnosed with Scoliosis, Degenerative Disc Disease, & Arthritis. Then I fell 2 different times within a year of each other & tore both rotator cuffs. I said no more surgery! I also had been diagnosed with Diverticulitis & Gallstones. I mustn't forget Fibromyalgia, Neuopathy in my hands, Asthma, & my right knee is bone-on-bone.

Up until Mangosteen juice I was using a walker or a wheelchair to get around & even resorting to using a cane in my mobile home because I couldn't walk the 65' length without resting or becoming weak. I was walking bent over like an old lady. And I was facing bankruptcy.

I believe God brought not only the Mangosteen juice to me but also the opportunity to become self-supporting. My goal is to be drug free, pain free, & self-supporting within 2 years. And I know I am going to make it. I have God, I have Xango & I have a wonderful support network!

For the first time in years I know I have a future & one I am looking forward to with excitement!
